

FLEXIBLE UNICODE AND BARCODE PRINTING.

Keep your company competitive. The plug and play simplicity of KYOmulticode 1.0 and PCL Barcode Flash 3.0 provides fast and easy access to barcode printing options which improve your office productivity. KYOmulticode 1.0 expands your printing options even further, adding a variety of fonts for your global business.

- PCL Barcode Flash 3.0 enable you to use the precision and low operating cost of KYOCERA printers, copiers and multifunctionals to print one- and two-dimensional barcodes.
- The KYOmulticode 1.0 flash card also adds Unicode multi-byte font capabilities to KYOCERA printers, copiers and multifunctionals. This includes four Andale fonts for Japanese, Korean, simplified and traditional Chinese plus support for all other existing languages.

KYOMulticode 1.0 and PCL Barcode Flash 3.0 enhance your printing options by adding barcode features and Unicode multi-byte font capabilities, meeting the requirements of your global business.

PCL Barcode Flash 3.0

- Barcode printing from SAP and other applications.
- Can be easily integrated into existing IT environments via plug and play.
- Extensive compatibility with traditional applications on the market.
- Supports 65 one- and two-dimensional barcodes including OCR-A and OCR-B fonts.
- Supports the Intelligent Mail[®] Barcode (IMBC) from the US Postal Service.

KYOMulticode 1.0

Includes all the functionalities of PCL Barcode Flash 3.0, plus the following:

- A standard Unicode font for the printing of all common languages used in day-to-day business.
- SAP device type support for KYOCERA devices, Unicode and non-Unicode.
